

Federal Restructuring Options

In six states using various federal strategies in 2007-08, the majority of schools chose the “other” option in implementing restructuring.

	CA	GA	MD*	MI	NY†	OH*
Reopening the school as a charter school	1%	0%	2%	0%	0%	1%
Entering into a contract to have an outside organization with a record of effectiveness operate the school	10	2	2	0	0	0
Replacing all or most of the staff who are relevant to the failure to make adequate yearly progress	13	2	14	11	13	23
Undertaking any other major restructuring of the school’s governance that produces fundamental reform	90	96	83	90	87	96

NOTE: Columns do not total 100% because some schools chose more than one restructuring option. Table does not include the option under the NCLB law of turning a school over to the state because this option is not permitted in the states studied.

*Percentages in Maryland and Ohio include both Title 1 and non-Title 1 schools.

† Percentages in New York include only schools that entered restructuring in 2007-08.
