

Views on School

In general, how would you rate the job done by the high school you most recently attended?

Methodology

The Associated Press-Viacom Survey of Youth on Education, by Stanford University, was conducted by GfK Roper Public Affairs & Corporate Communications from Feb. 18 to March 6. The results are based on phone interviews, in English and Spanish, with a nationally representative random sample of 1,104 adults, ages 18 to 24.

Results were weighted to ensure that responses accurately reflect the population's makeup by factors such as age, sex, education, and race. No more than one time in 20 should chance variations in the sample cause the results to vary by more than plus or minus 3.5 percentage points from the answers that would be obtained if all 18- to 24-year-olds in the United States were polled.

The questions and results are available online at surveys.ap.org.

NOTE: Numbers equal percentages
