Educational Research Service is the nonprofit organization serving the research and information needs of the nation's preK-12 education leaders and the public. Founded by the national school management associations, ERS provides quality, objective research and information that enable education leaders to make the most effective school decisions in both day-to-day operations and long-range planning.

ERS Founding Organizations:

American Association of School Administrators
American Association of School Personnel Administrators
Association of School Business Officials International
National Association of Elementary School Principals
National Association of Secondary School Principals
National School Public Relations Association

ERS Executive Staff:

John C. Draper, Ed.D., Chief Executive Officer
Katherine A. Behrens, Chief Operating Officer

ISBN: 978-0-9836011-1-1. Order from ERS, 1001 North Fairfax Street, Suite 510, Alexandria, VA 22314-1587. Phone: 800-791-9308. Fax: 800-791-9309.

Dedication

*This book is dedicated to Rae Marcus and Jack Price
and the memory of Dora Helen Skypek and Bob Davis,
Superb mathematics teachers who always worked towards
making mathematics education better for all,*

And

*My nephews, Ron and Roy Greenblatt,
who make life better for me.*

| Rubric Grading of a Problem– An Example From <i>Exemplars</i> | 201 |
| Appendix II: | |
| Common Core State Standards for Math..... | 213 |
| References..... | 259 |

About the Author

Judith E. Jacobs grew up in Brooklyn New York and received her education in Brooklyn's public schools. She received her B.A. and M.A. in mathematics from Brooklyn College and her Ph.D. in mathematics education from New York University. Dr. Jacobs began her teaching career as a junior high school mathematics teacher in Brooklyn, New York. She has subsequently taught high school mathematics and both content and methods courses for elementary and secondary mathematics teachers at various universities. She was an education professor at Richmond College in Staten Island, NY, and George Mason University in Fairfax, VA. She retired as a mathematics professor from California State Polytechnic University, Pomona in September, 2008.

She began her career in mathematics education professional development with the Madison Project in the mid-1960s. She has been the principal investigator on numerous projects and has worked with teachers of mathematics at all levels—elementary, middle, and high school—as well as with university faculty. Her research area focuses on equity issues in mathematics and she incorporates those concerns in all her professional development activities.
