

## TEACHER TECH USE AND 21ST-CENTURY SKILLS INSTRUCTION

According to a nationwide survey, teachers who described themselves as frequent technology users were more likely to place a greater emphasis on so-called 21st-century skills instruction and to perceive a stronger effect from student technology use on the development of these skills.

### SURVEY QUESTION:

Please indicate to what level each skill is emphasized in your classroom on a scale of 1 to 5.

#### Infrequent Technology Users

#### Frequent Technology Users
