NOTES:

- CTE refers to career and technical education.
- A dash (—) in U.S. row indicates that a total was not appropriate.
- Exit-exam subjects tested: E=English (includes writing), M=Mathematics, S= Science, H=History/Social Studies, and T=Technology

SOURCE: For information on indicator definitions and sources, see Page 38.

FOOTNOTES:

1. Credit hours for Nebraska are not expressed in Carnegie units.
2. Subject-specific credits for states that do not have total course-credit requirements are not listed in the total-credits column and are not reflected in the national average for total credit requirements.
3. Students must pass either the science or social studies components of the Graduation Exit Examination (GEE) to receive a standard diploma.

4. To receive the standard diploma, students must earn at least six verified credits by passing end-of-course assessments. One of these credits may be earned by passing a student-selected test in computer science, technology, career and technical education, or other areas.
5. For the graduating classes of 2008 to 2012, students must pass an exit exam in reading and writing, but may meet the state's math requirement by passing its standardized math assessment or continuing to earn math credits until they graduate.
